Target version:			
Resolution:		**Tags:**	

Description

When I'm the author of a new blip, such blip should be marked as "read" automatically.
Sequence:

- I go to my user-space
- I choose one of my waves
- Scroll down and click in "Click here to reply" (to create a new blip)
- Edit and write anything and finish editing (either Shift+Enter or clicking "Edit" again)
- I go to the group-space, and when I come back, the new blip is unread...

History

I strongly suggest promoting this issue to Urgent Priority, as it seems very easy to fix and many little easy improvements can make quickly a big difference.
