Kune - Defect #210
The rendering of waves should be the same logged and not logged

03/13/2012 10:43 AM - Anonymous

Status:	New	**Start date:**	
Priority:	High	**Due date:**	
Assignee:	Vicente J. Ruiz Jurado	**% Done:**	0%
Category:	Group space	**Estimated time:**	0.00 hour
Target version:			
Resolution:		**Tags:**	

Description

After submitting the Google Summer of Code application and using kune.cc public pages for presenting them our applications, the public view of waves gains much more importance. Both pages
http://kune.cc/?locale=en#comunes.wiki.318.529
http://kune.cc/?locale=en#comunes.wiki.318.259

are seen with multiple mistakes, in both Firefox and Chromium. Supression of line-breaks, no working hyperlinks, no respect to font sizes, etc

History

#1 - 04/19/2012 01:15 AM - Vicente J. Ruiz Jurado

We should add a issue in Wave about this. The goal is to create a render module with the same code as the editor.

#2 - 11/01/2013 08:59 PM - Akis -

Probably same issue with: http://kune.ourproject.org/issues/ticket/186
