

Kune - Defect #295

DB is not updated by debian dbconfig

06/14/2012 10:27 AM - Vicente J. Ruiz Jurado

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	0.2.0	Tags:	
Resolution:	invalid		
Description			
More info in debian/rules, but for instance: src/main/resources/db/update-0020-names-width.sql is not executed.			

History

#1 - 06/14/2012 11:06 AM - Vicente J. Ruiz Jurado

- File dbconfig.log added

#2 - 10/03/2012 12:30 PM - Vicente J. Ruiz Jurado

- Status changed from New to Closed
- % Done changed from 0 to 100
- Resolution set to invalid

This was happening because we answer "No" during debian package installation.

See /etc/dbconfig-common/kune.conf
