

Kune - Defect #353

Removing tool "Documents" blocks access to group

09/24/2012 10:55 AM - Samer -

Status:	Closed	Start date:	09/24/2012
Priority:	Normal	Due date:	
Assignee:		% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:		Tags:	
Resolution:			
Description			
Joemaro: Just created a group and while viewing the documents i disabled the documents-feature in the Group Options dialog... which brought me back to my own homepage and now the group is not accessible anymore :)			
The problem is that it goes by default directly to the Document tool, even if it doesn't exist.
