Description			
<p>When pointing mouse on a contact, there is a popup with <i>Last visited...</i> In french locale, I see <i>Dernière visite[%]</i>. [%] is displayed as this.</p> <p>I think it could be due to the direct transfert from Demo translation tool database that store &xxxx; code. It should reconverted when transferring. Peharps, same pb then <i>Marquer comme 'fait'</i> with ' char.</p>

Is there some news on this point ?

#2 - 12/18/2012 03:24 PM - Vicente J. Ruiz Jurado

- Status changed from New to Closed
- % Done changed from 0 to 100
- Estimated time set to 0.00

Yes, should be fixed in the next update of our server. For your info, someone did the French translation using [%] instead of [%s] in several strings. I fixed using the translator.

#3 - 12/18/2012 04:53 PM - Vincent Osele

oops, I think it is me for the '%' instead of '%s' !!
sorry !
