<b>Resolution:</b>			
<b>Description</b>			
In several places they recommend to add .classpath to .gitignore, e.g.: <a href="https://github.com/github/gitignore/blob/master/Global/Eclipse.gitignore">https://github.com/github/gitignore/blob/master/Global/Eclipse.gitignore</a>			
I'd commit the change but I recall Vicente disagreed once, don't know/remember the reasons.
