Description

Hi,

I followed the steps outlined in http://kune.cc/#!kune.docs.6810.898 to install kune form .deb package on Ubuntu 12.10 (excluding the optional steps)

But when i open http://127.0.0.1:8888 i get:

"HTTP ERROR: 503

Problem accessing /. Reason:

   Service Unavailable

Powered by Jetty://"

Also log is attached

Thanks for the help

Fix for #453: Debian package db migration fails. Client gives HTTP ERROR: 503

History

#1 - 01/02/2013 04:38 PM - Christopher Baldwin

- File kune.log added

I've followed the same steps using Debian 6.0.6 and Ubuntu LTS 12.04 and got similar errors in the log (attached)

Try running the following, I was able to get a working instance after this:

mysql -p kune_prod < /usr/share/dbconfig-common/data/kune/upgrade/mysql/0.2.0+b25

#2 - 01/07/2013 11:33 PM - Vicente J. Ruiz Jurado

Christopher is right. See please "Note 2" in:

http://kune.cc/?locale=es#!kune.docs.6810.898

#3 - 01/17/2013 06:01 PM - Vicente J. Ruiz Jurado

- Tracker changed from Support to Defect

- Subject changed from HTTP ERROR: 503 to Debian package db migration fails. Client gives HTTP ERROR: 503

- Priority changed from Normal to Urgent

#4 - 01/20/2013 03:49 AM - Vicente J. Ruiz Jurado

- Status changed from New to In Progress

- % Done changed from 0 to 50

The issue can be debugged:

http://people.debian.org/~seanius/policy/dbconfig-common-using.html/ch-develguide.html#s-debugging

installing the package from scratch and looking why the upgrades are not processed.

For now, looking into:

/usr/share/dbconfig-common/dpkg/postinst

and testing things like:

 dpkg --compare-versions 0.2.0+b14 gt 0.1.0+b13

#5 - 01/21/2013 01:49 PM - Vicente J. Ruiz Jurado

- Status changed from In Progress to Closed

- % Done changed from 50 to 100

Applied in changeset commit:4867cd7cdce3fbb5d838eeefb473a914618fd24f.
