<b>Description</b>			
Seems that is the websocket code... (or some external js)			

#### History

##### #1 - 08/16/2011 09:54 PM - Vicente J. Ruiz Jurado

I think this happens when a new GWT client version is not loaded (because it's cached by the browser)

##### #2 - 01/12/2013 08:51 PM - Vicente J. Ruiz Jurado

- Status changed from New to Closed
- % Done changed from 0 to 100
- Resolution set to wontfix

Related with GWT new code. Fixed reloading the client (and removing server caches, for instance, in CDN)
