

Kune - Enhancement #88

Create a tasks tool for groups/persons

08/07/2011 11:42 AM - Vicente J. Ruiz Jurado

Status:	Closed	Start date:	
Priority:	High	Due date:	
Assignee:	Vicente J. Ruiz Jurado	% Done:	100%
Category:	Group space	Estimated time:	0.00 hour
Target version:	0.1.0	Tags:	
Resolution:	fixed		
Description			
<p>The idea is to allow people to manage its tasks using waves in a hierarchical form.</p> <p>Exists some task gadgets, but it's more interesting to have a wave per task...</p> <p>In 15M movements people was using etherpad, redmine (mainly geeks), and things like that.</p> <p>This in this tool like a simple ticket system for non-tech people. People create tasks (wave), add comments, tags, etc...</p> <p>Work in progress:</p> <p>http://kune.beta.iepala.es/ws/#demo.tasks</p>
